

EcoFresh® Odor Absorber

Eliminates Odors Where Sprays Can't Reach

EcoFresh

ODOR ABSORBER

PERMANENTLY TRAPS ODORS AND MOISTURE

- Contains natural Zeolite minerals
- Quickly absorbs and eliminates foul odors
- Reduces energy usage in refrigerators and coolers
- Available in 4oz and 16oz sizes for versatility
- Foil sealed bag keeps pouches fresh until ready for use
- Easy to use and dust-free

The 4 oz Odor Absorber works well in pet areas, closets, laundry, lockers, gym bags, gun cases, footlockers, and other small spaces. The 16 oz Odor Absorber works great for especially troublesome odors like smoke and decaying animal. Use in HVAC returns to remove moisture and odors.

PROVEN ENERGY SAVINGS! Oregon State University testing showed an average energy savings of 7.5% where EcoFresh® Odor Absorbers were used. Tests in walk-in coolers at a major fast-food franchise resulted in a savings of 15%. A soft drink bottling company achieved a 22.5% energy savings in vending machines. Home refrigerators saw a 12% reduction of energy consumption when cooling settings were raised slightly because our pouches were in use.

ODOR ABSORBER

SUGGESTED USES

WHERE TO USE	WHY USE IT	HOW TO USE
Home and Office	Removes smoke and cooking odors, pet odors, chemical and paint odors, perfumes, mildew odors, and mustiness.	Place in affected room(s). More than one pouch can be used in any area.
Carpets, Rugs, Upholstery	Removes odors from pet soilage, food spills, and chemical odors from off-gassing materials.	Place in affected area, on top of soils or spills.
Refrigerators and Freezers	Saves energy, removes food odors and ethylene gas which causes fruits and vegetables to ripen more quickly. Reduces and eliminates ice crystals.	Place pouch in refrigerator and freezer. Replace every 3 months or when odors return.
Walk-In Coolers, Refrigerated Display Cases	Controls odor, extends shelf life of food products and flowers.	Place pouch in refrigerator. Use one 16 oz pouch for every 25 sq ft of space. Replace every 3 months or when odors return.
Heating & A/C Vents	Prevents the transfer of odors from room to room.	Place in accessible vents, being sure not to block air flow.
Closets, Drawers, Storage Bags/Boxes	Removes smoke and mildew odors. Helps remove excess moisture.	Place in affected areas. More than one pouch may be used in any area.
Bathroom and Laundry	Prevents mildew, mustiness, bathroom odors, and excess moisture.	Place in hampers and by washing machine.
Hospitals and Nursing Homes	Patients will benefit greatly from the clean smelling environment with no chemical or sickly smells.	Place near bedside and/or under the bed.
Nurseries	Removes smells from diaper pails, soilage, and other common nursery odors.	Place in diaper pail, under crib, and/or near or under changing tables, and hampers.
Gym Lockers and Bags	Removes foot and sweat odors; prevents cracking and mildewing footwear.	Place in lockers, gym bags, helmets, gloves, shoes, skates, etc. to absorb sweat, moisture, and odors.
Shoes and Boots	Eliminates sweat and foot odors from footwear.	Place pouches in shoes and boots to absorb sweat, moisture, and odors.
Vehicles (autos, boats, RV's)	Removes smoke and musty odors as well as fishing, camping, and hunting smells.	Place under seats(s) and in cargo area(s).
Motorcycle Gear	Prevents mildew, reduces moisture, freshens smelly helmets, leathers, and gloves.	Place pouches inside helmet, gear bag, and leathers.
Animals (home, cage, kennel)	Controls pet odors.	Place near litter boxes, on or near kennels, and near pet bedding areas.
Trash Cans / Compost Bins	Removes odors from waste and compost.	Place inside, or tape to lid of cans or bins.

EcoFresh® Odor Absorbers are needed wherever there is an undesirable odor, excess moisture, or mildew.

Recommended quantities of EcoFresh® Odor Absorbers may vary since odor and moisture control needs vary widely.
