FOR ADDITIONAL USAGE INFORMATION

INDOOR USE: Do not apply directly to house plants. Cover/avoid any pools or aquaria prior to spraying. **GENERAL PEST CONTROL:** To control accessible, exposed stages of crawling insects in sites that include, but are not limited to, apartments, homes, restaurants, food processing plants, industrial installations and warehouses, dilute at the rate of 0.25 to 4 fluid ounces of Spectra X CS per gallon of water (use lower rate for maintenance service and higher rates for active infestations). Thoroughly spray areas where insects are usually found with special attention to cracks and crevices, niches, dark corners, drains and other harborage sites

OUTDOOR USE PERIMETER TREATMENTS AND RECREATIONAL AREAS: In compressed air sprayers, dilute 0.5 to 4 fluid ounces of Spectra X CS per gallon of water (use lower rate for maintenance service and higher rates for active infestations) and apply at the rate of 2 gallons per 1000 square feet or until area is thoroughly wet. Also apply to a band of soil and vegetation 6 to 10 feet wide around and adjacent to buildings. Treat the building foundation to a height of 2 to 3 feet with sufficient solution for coverage. Additionally, apply around potential entry areas such as, but not limited to, eaves, windows, doorways, porches, porch lights, and around utility boxes. For power sprayers, mix 0.5 to 4 ounces of Spectra X CS per gallon of water (use lower rate for maintenance service and higher rates for active infestations) and apply until area is sufficiently covered (usually minimum 4 gallons per 1000 square feet.). Maintain agitation. Repeat as necessary.

MOUND DRENCH METHOD - FOR CONTROL OF FIRE ANTS AND OTHER MOUNDING ANTS: Dilute 2 to 4 fluid ounces of Spectra X CS per gallon of water. Apply 1 to 2 gallons of working solution to each mound area by sprinkling the mound until it is wet and treat a 4 foot diameter circle around the mound. Use the higher volume for mounds larger than 12 inches. For best results, apply in cool weather, such as the early morning or late evening hours, but not in the heat of the day.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

FOR CONTAINERS LARGER THAN ONE GALLON: PESTICIDE STORAGE AND SPILL PROCEDURES: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, or cat litter. Dispose in trash.

CONTAINER DISPOSAL: Triple rinse or its equivalent, then offer for recycling; or puncture and dispose of with ordinary trash.

STORAGE: Store in original container in a dry cool place inaccessible to children and pets.

DISPOSAL: Do not reuse container. Discard in trash or recycle.

LIMITATION OF LIABILITY: To the fullest extent permitted by law, the manufacturer disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product. Buyer assumes all responsibility for safety and use not in accordance with label, directions and precautionary statements.
